

Water Repellent Fabric Anti Pill

**Product codes:**

Reference: EUF592E5 -B5

Product price:

£ 4.99 tax included

Product attributes:

Colour: Sand 592

Type: Fabric, Order Sample, Thread

Product short description:

This is a perfect fabric to line traditional waxed fabrics. It is treated with a DWR c^ Fluorocarban finish. Additional to water repellence, this lining has a good oil repellence and acts as a barrier to the wax, ensuring no transfer/migration on the inside of garments. Used in high quality waxed cotton jackets.
