Product short description:

A heavy duty quilted waterproof fabric used to provide protective measures in transporting machinery, white goods or even steel parts. This material provides excellent insulation and protection for washing machines, fridges, steel, machinery or other delicate parts when moving.

This quilted cover fabric has a 7oz polyester fabric on both sides sandwiched in a 135g wadding. Fabric used on both sides is a non-abrasive waterproof fabric on the backing to protect the goods.
